

## Stream XP<sub>2</sub> A cornerstone for building a modern hi-fi system

### Product Information:

Recognised by thirty years of awards and accolades, Cyrus consistently pushes the boundaries of audio technology. We're tirelessly working towards the ultimate hi-fi system, which will reproduce the sound and feeling of a live performance without any interference or loss of detail.

Stream XP<sub>2</sub> incorporates our streaming engine with a high performance DAC and pre amplifier. The high definition streaming system at the heart of the Stream XP<sub>2</sub> is compatible with the highest resolution 24-bit music files, and is designed to make sure nothing is added to or taken away from the artist's recording.

Browse and enjoy your digital music collection with the Cadence app, viewing albums, artwork, internet radio stations and marking favourites with ease.

### Stream XP<sub>2</sub> features and benefits

#### Advanced Audio Streaming Engine:

Supporting all popular formats, Stream XP<sub>2</sub> is able to stream audio from USB, NAS drives or even iPod devices in high resolution up to 24/192.

#### High Performance Pre Amplifier and DAC:

Stream XP<sub>2</sub> features our high performance analogue pre amplifier and DAC. The high definition streaming system at the heart of the Stream XP<sub>2</sub> is compatible with the highest resolution 24-bit music files.

#### Essential Connectivity:

Wi-Fi or Ethernet, integration into your home network is effortless and reliable. Additional sources? No problem, there are 5 digital inputs, fixed and pre analogue outputs for future upgradability. There is even a class A headphone amplifier built in as well. Finally the Stream XP<sub>2</sub> features the PSX-R port for instant sonic improvement across all sources.

#### Internet Radio:

If you love radio, you'll love TuneIn radio. With over 100,000 channels available, both local and national, the choice for music is as endless.

#### Effortless Control:

Once connected, download our free Cadence app from iOS App Store or Google Play Store for a complete and intuitive control system. All key system functions, along with playlist creation and storing favourite internet radio stations, are available when using Cadence.

Cyrus audio products are designed, manufactured and supported at our headquarters in Cambridgeshire, England.

All Cyrus components are manufactured in an advanced die-cast aluminium chassis and this hand finished casework is an integral part of the products' sound. It's not just about good looks; the chassis composition is specifically designed to create an electronically shielded and mechanically vibration-free environment for the sensitive audio circuits which are hung inside the inverted chassis, avoiding unwanted electric currents and secondary magnetic fields so the sound you hear is the very best that it can be.

### Suggested Systems

Stream XP<sub>2</sub> + PSX-R<sub>2</sub>

### Stream XP<sub>2</sub> Specifications

Streamer with pre amplifier

24 bit DAC

iOS and Android Cadence app controlled

5 digital inputs
